FIREBUSD

1 - STAKE BUSD

1 - Open <https://firebusd.finance>

2 - Click "**Connect**" at the top to connect your browser wallet to the dapp. Please ensure you are on the BSC network

3 - In the "MINT **FireBusd**" section, you will need to approve your BUSD spend with the application (i.e. enter 250 for \$250) and click "**Approve**". Your browser wallet will popup to confirm the transaction, click Confirm and wait for the transaction to be processed by the blockchain.

4 - In the "MINT **FireBusd**" section, enter the amount of BUSD to enter into the dapp and click "**INVEST**". Your browser wallet will popup to confirm the transaction, click **Confirm** and wait for the transaction to be processed by the blockchain. A MAX button has been provided which will enter in the maximum amount of BUSD that you have in your wallet

5 - If you experience high gas fees while investing BUSD then make sure you have approved your spend (step #3)

FIREBUSD

2 - STAKE FIREBUSD

1 - Open <https://firebusd.finance>

2 - Click "**Connect**" at the top to connect your browser wallet to the dapp. Please ensure you are on the BSC network

3 - In the "STAKE **FireBusd**" section, enter the amount of **FireBusd** to enter into the dapp and click "**STAKE**". Your browser wallet will popup to confirm the transaction, click **Confirm** and wait for the transaction to be processed by the blockchain. A MAX button has been provided which will enter in the maximum amount of BUSD that you have in your wallet

FIREBUSD

3 - UNSTAKE FIREBUSD

- 1 - Open <https://firebusd.finance>.
- 2 - Click "**Connect**" at the top to connect your browser wallet to the dapp. Please ensure you are on the BSC network.
- 3 - In the "STAKE **FireBusd**" section, click the "**UNSTAKE**" button. Your browser wallet will popup to confirm the transaction, click **Confirm** and wait for the transaction to be processed by the blockchain.
- 4 - Note that you can only unstake after 7 days, and each time you restake the time resets to 7 days.

FIREBUSD

4 - SELL FIREBUSD

1 - Open <https://firebusd.finance>.

2 - Click "**Connect**" at the top to connect your browser wallet to the dapp. Please ensure you are on the BSC network.

3 - In the "SELL **FireBusd**" section, enter the amount to sell and click "**SELL**". Your browser wallet will popup to confirm the transaction, click **Confirm** and wait for the transaction to be processed by the blockchain. A MAX button has been provided which will enter in the maximum amount of BUSD that you have in your wallet

FIREBUSD

S - TOKENOMICS

Total Supply : The maximum amount of **FireBusd** that can exist. This is fixed at 1,000,000

Circulating Supply : The amount of **FireBusd** tokens that is in users wallets or staked by users.

Available Supply : (Total Supply - Circulating Supply)

BUSD Balance : The BUSD value in the contract

FIREBUSD

6 - PRICING

FireBusd Price : $(\text{Total BUSD Balance} / \text{Available Supply})$

BUSD Investments : Using the "**FireBusd Price**" formula, it's easy to derive that as more funds enter the contract the price increases, and as funds leave the contract the price decreases.

Token Minting : Using the "**FireBusd Price**" formula, as users mint **FireBusd** tokens (either by using BUSD or staking **FireBusd**) the Circulating Supply increases (which reduces the Available Supply) which drives the price up.

Token Selling : Using the "**FireBusd Price**" formula, as users sell **FireBusd** tokens the Circulating Supply decreases (which increases the Available Supply) which drives the price down.

FIREBUSD

7 - AIRDROP

Complete the challenges to get airdrops
You can receive 100 **FireBusd** every 7 days aims:

- 1 - Have at least 100.00 BUSD in Stake
